CHRISTMAS TREE INSTALLATION INSTRUCTION

1

A B C

plastic cover

Stand Bolts*3

Please check all the accessories included: Section A + Section B + Section C + Stand + Bolts*3

2

Place the stand in the shape of "X"

3

Please take down the plastic cover on Section A

4

Insert section A into the stand

5

Tighten the bolts on the stand

6

Open section A

7

Insert section B

8

Open section B

9

Insert section C

10

Open the branches and tips FULLY

Note:

1. Plastic cover on Section A is used for protecting package from damages, which is irrelevant to assembly.
2. For convenience, comfort and added safety, we suggest wearing gloves when fluffing an artificial Christmas tree.
3. To achieve the most authentic appearance, find an image of a similar live tree, and try to mimic the direction of the branches and tips, or view the detailed closeup images of the tree that you purchased. Fully open the tips and branches are highly recommended here.
4. Make sure that all bolts are screwed in tightly to keep its stability.
